Oil and Gas Industry

Mo-Star Communications is a full service Oil and Gas remote communications service provider. Established in 1996, Mo-Star is now one of the leading oilfield communications providers. Mo-Star operates throughout Texas, New Mexico, Louisiana, Colorado, Wyoming and a select group of foreign countries. Now providing service to the Oil and Gas, Construction, Maritime, and Disaster Recovery industries, Mo-Star is able to provide comprehensive, world class communication services in the most demanding environments. Additionally, Mo-Star utilizes best-in-class equipment and employs the most experienced communication professionals.

Companies worldwide rely on Mo-Star to maximize productivity, security and safety in challenging remote environments. Mo-Star provides a complete range of enterprise level communications technologies including: fixed VSAT communications, portable VSAT communications, intercom systems, 2-Way Radio, custom WIFI solutions, cellular connectivity solutions, industrial peripheral solutions, video conferencing, office to remote voice/data integration, VPN solutions, and acceleration solutions. Furthermore, Mo-Star provides bandwidth delivered via private line services, providing stable, seamless, custom voice and data integration to clients' networks.

Whether servicing land or offshore locations, Mo-Star provides client specific, high speed communications to allow for maximum work optimization. Mo-Star has partnered with proven, WITSML compliant equipment providers to ensure compatibility to all rig or platform output instrumentation, unequaled quality of service and maximum up-time. Some of the largest and most progressive energy companies in the world depend on Mo-Star's technology and expertise for far-reaching and critical communication capabilities. All solutions are backed by the most experienced technical support and engineering team in the industry. Finally, Mo-Star is driven by an unequaled dedication to its clients. A select list of Mo-Star's clients is available through Mo-Star's account managers.

MOSTAR

COMMUNICATIONS

Fixed VSAT Communications

- 1.8 Meter trailer mounted fixed VSAT solution
- 1.2 Meter skid mounted fixed VSAT solution
- 1.2 Meter auto deploy for extreme remote installations
